### **SFR Business Team: a new vision of convergence**

Set up to respond to the specific needs of professional and corporate users, SFR Business Team provides a new vision of convergence. SFR Business Team's single aim is to become their preferred partner, by offering both simple and effective solutions adapted to customers' expectations in every way and helping them to implement them. In a complex market in which a wide range of products and services exists and in which one innovation is quickly followed by another, SFR Business team provides an efficient service to make its customers' lives easier.

### **Multiservice solutions at the cutting edge of technology**

Supported by a network of 300 solutions partners and 2000 dedicated staff, SFR Business Team aims to offer solutions including fixed and mobile telephony, broadband internet as well as numerous functionalities. Its services are built on the very best of modern technology in terms of unbundled services, VoIP, DSL, multiservice boxes, etc.
